

Index of Names

This index provides an every-name reference to the names contained in this book. Entries refer to page numbers. Many entries for the families of siblings include a list of children's names within each family. Those names are not included here as they would simply expand this section enormously without providing significant information.

Married women are indexed by both their maiden name and their married name. Maiden names are enclosed in parentheses and married names in square brackets. If a woman's maiden name is unknown, she will only be indexed under her married name. For example, Elizabeth [—?—], wife of Richard Steele, will be indexed only as

Steele, Elizabeth ()

Women married more than once are indexed under each married name. Mercy Warner, who was first married to John Steele, Jr., and later to William Hills, has the following three entries:

Hills, Mercy (Warner)
Steele, Mercy (Warner)
Warner, Mercy [Steele, Hills]

Names appearing in footnotes are indexed by appending the letter "f" to the page number, e.g., John (b. 1591), 288f.

To differentiate among the many Steele names, birth dates are provided for the male Steeles. As with the rest of the index, the female Steeles can be distinguished by their married names.
